## Fortenberry Votes to Level Playing Field with China on Trade

Washington, D.C. -- Congressman Jeff Fortenberry today voted for HR 2378, the Currency Reform for Fair Trade Act.

“For years Chinese monetary policy has contributed to huge trade imbalances and an unfair competitive environment for U.S. businesses.”

The Currency Reform for Fair Trade Act would clarify U.S. law to ensure that countervailing duties can be applied to Chinese subsidies.

Fortenberry is a member of the House Foreign Affairs Committee and the Oversight and Government Reform Committee.
